

ARTIST STATEMENT

John Morning is a Manhattan artist whose abstract prints and paintings emphasize color and structure. His work is in the collections of The Metropolitan Museum of Art and other notable institutions and individuals.

The Rockefeller Brothers Fund has shown selected prints in a solo exhibit, "Beyond Shape," and ChaShaMa has presented a one-person show. Last year he completed an indoor mural at Henry Street Settlement in Manhattan.

A graduate of Pratt Institute, his earliest art instruction was at the Cleveland Museum of Art. John's art world experience is heightened as founding chairman of the International Print Center New York and former member of The New York State Council on the Arts.
